From Alphabet to Book

An ongoing course promoting understanding and proficiency in the foundational hand. This course will include many variations, which can then be used to make variations in other hands. Plus 3 days of color theory to incorporate into your calligraphic pieces. By the end of the course, you should be well versed in the use and mixing of gouache, the use of some of your tools and a book record of everything that you will have practiced. And best of all, to minimize cost, this will be team taught by three of your very own talented guild members. Peggy Kunkel, Roann Mathias and Ann Rabinovitz. They will bring to this course technical information gathered through the many workshops that they have attended over the years and it is open to every level of calligrapher.

COURSE DESCRIPTION

Feb. 20 & 21, 2010—Foundational Upper and Lower case alphabet--
